

TITHE GREEN BURIAL GROUND

A meadow and woodland for remembrance in Sherwood Forest
in the County of Nottinghamshire

All visitors to the Tithe Green Burial Ground are asked to comply with the Cemetery Regulations. When a burial takes place at Tithe Green, families will be given a copy of these regulations and are asked to read and abide by them. The regulations are our *terms and conditions* of use for the burial ground and have been set out to ensure that the ethos of natural burial is maintained.

With these regulations in place Tithe Green will endeavour to create a natural and peaceful environment for those who have passed on and those who mourn them.

Grave Plots and Burials

1. The burial of pets and other animals is not permitted.
2. Each full grave plot measures 2.5m x 2m and can accommodate one coffin, or four cremated remains interments only. Cremated remains may also be interred together with the planting of a memorial tree
3. When purchasing in advance, it is possible to allocate whether a grave plot is to be in the meadow or woodland areas. However, it is not possible to choose specific grave plots until the time of interment. Family plots, or groups of graves bought in advance, are available.
4. In order to ensure a healthy ecosystem for the nature reserve, and in tune with its ethos of care for the environment, the Company only accepts the use of fully biodegradable and environmentally-friendly coffins. These include coffins made of wicker, bamboo, softwood, recycled paper (papier-mâché) and recycled board. Shrouds made of natural fibres are also acceptable.
5. A body that has been embalmed, or otherwise treated with noxious and toxic chemicals, cannot be interred at the Site and burials in body bags of any type are also not permitted.
6. Interments cannot take place at the Site until the death has been legally registered and the appropriate documentation received by the Company.
7. Cremated remains may not be scattered at the Site. Allowing this practice would alter the chemical balances needed to support a natural reserve
8. Cremated remains must be interred in biodegradable caskets or boxes, or poured directly into the grave plot. Plastic urns provided by some crematoria are not biodegradable and therefore cannot be interred.
9. Flowers, offerings and other tributes may be placed on graves at the time of a funeral or memorial ceremonies and services. These will be removed by the Company after five days (or when deemed appropriate by the Company) in order to ensure that any non-biodegradable matter is taken from the Site and natural ground cover is allowed to develop.
10. Trees acquired as living memorials in the woodland area of the Site are guaranteed for 10 years: if a tree dies during that period, it will be replaced. After that time, the woodland will begin to develop naturally, with some trees growing more vigorously than others. For this reason, the Company encourages an understanding that the woodland as a whole is the lasting memorial.
11. Visitors to the Site must comply with the Local Authorities Cemeteries Order 1977, Article 10, Paragraph 6, and with the Criminal Damages Act 1971, Article 1, Section 1. (see Notes below)
12. These Regulations may, from time to time, be altered according to need, and such alterations may be carried out at the discretion of the Company.
